Empower workteams with print, copy, scan, fax,<sup>1</sup> and digital sending functionality in one convenient device: the HP LaserJet M3035 MFP series.

## Efficient

- **Get more done in less time.** The MFP delivers print and copy speeds of up to 35 pages per minute (ppm) and a first page out in under 10 seconds with Instant-on Technology. The unique HP toner formula is engineered to deliver consistent, great-looking documents at fast speeds.
- **Accelerate existing workflows.** The MFP comes standard with send-to-e-mail, send-to-network folder, network authentication, and LDAP support embedded in the device for easy integration into your existing infrastructure. Add optional HP Digital Sending Software 4.3 for send to ftp sites and fax services. Consider optional HP AutoStore software to improve paper-intensive workflows by connecting the MFP to document management solutions.
- **Automatic two-sided printing and copying conserves paper and saves time.** The device also includes a 50-sheet reversing automatic document feeder (ADF) for effortless copying and scanning of multi-page documents.

## Easy

- **Experience simple, dependable networking.** The MFP features IPv6-ready<sup>2</sup> best-in-class networking and management tools via the HP Jetdirect Fast Ethernet embedded print server. HP Web Jetadmin offers remote installation, configuration, and proactive management. The HP Embedded Web Server performs remote diagnostics, sends e-mail alerts, provides job tracking and accounting, and facilitates convenient supplies reordering.
- **Reduce training and increase productivity.** A radically simple, intuitive, helpful control panel pulls all the functions of this MFP together with familiar Windows® emulation icons, automatic navigation, installation wizards, and help screens.

## Expandable

- **Add the solutions your business needs.** An FIH port, open EIO slot, and host USB port allow you to easily expand the MFP's capabilities with HP and third-party solutions, such as additional fonts, forms, barcode printing, and market-leading solutions for document capture, job accounting, and security. Get investment protection with access to IPsec TCP/IP security, Gigabit Ethernet, and wireless network compatibility.
- **Reduce interruptions.** Reloading paper can steal your time and interrupt your work momentum. The MFP supports up to 1,100 sheets with a 100-sheet multipurpose tray and two 500-sheet trays,<sup>3</sup> plus a 20-sheet convenience stapler for easy finishing.<sup>1</sup>

## Reliable

- **Expect consistency.** Original HP cartridges are carefully designed with HP Smart printing technology<sup>4</sup> to automatically optimize print quality and consistency throughout cartridge life, provide pages-remaining data and alerts when supplies run low, and facilitate convenient supplies reordering through HP SureSupply.<sup>5</sup> Comprising up to 70% of the device's printing system, each print cartridge replacement refreshes the whole MFP.
- **Eliminate the bottleneck.** Complex jobs are not a problem with a 400 MHz processor and 256 MB of memory (expandable up to 512 MB on both models). Plus, a quick return to the application after printing means increased uptime.

HP printing and imaging systems help you create powerful, professional communications easily. HP multifunction products, supplies, accessories, and services are designed together to work together and are invented to meet your business needs.

<sup>1</sup> Fax functionality and 20-sheet stapler come standard on the M3035xs only and cannot be added to the M3035 as an accessory.

<sup>2</sup> IPv6 is only supported with Microsoft® Server 2003 and Windows XP® (print only).

<sup>3</sup> The extra 500-sheet input tray comes standard on the M3035xs only and can be added to the M3035 as an accessory.

<sup>4</sup> Using genuine HP supplies ensures availability of all HP printing features.

Simplicity, convenience, and outstanding support make the HP LaserJet M3035 MFP series the perfect choice for small workteams with no time to worry about device management.

## Secure printing

For many businesses, information is one of their most valuable assets. The HP LaserJet M3035 MFP series is designed to protect critical information—in both hardcopy and electronic form—and simplify the way you manage your environment with easy tools and checklists. Following are some examples of the way this device safeguards your business:

- Private Printing lets you protect confidential documents by allowing you to hold a job for printing until you release it using a 4-digit Personal Identification Number (PIN) at the MFP's control panel.
- HP Secure Storage Erase makes sure that data you want to eliminate is unrecoverable. Unless otherwise specified, the MFP deletes data from the hard disk when the print job is finished.
- Our renowned family of HP Jetdirect connectivity products support a wide range of industry-standard and trusted security protocols, including 802.1x for Wired Networks, SNMPv3 and HTTPS, and Secure IPP (IPP-S) and IPsec.<sup>6</sup>
- Network authentication (LDAP, SMTP) adds another layer of security by allowing administrators to control device access. By requiring users to log in, administrators can limit usage of all the device features, or of just the copying or sending functions.
- Track usage for all printer and MFP models by job, user, device, or application with the HP Web Jetadmin Report Generation Plug-in. For more information, go to [www.hp.com/go/webjetadmin](http://www.hp.com/go/webjetadmin).

For more information, go to [www.hp.com/go/secureprinting](http://www.hp.com/go/secureprinting).

## Convenient storage

HP's world-class designers have thought through all the details and included a 40 GB embedded hard drive on both models, which provides a virtual mailbox to keep sensitive documents confidential, proof a document before releasing the remaining copies, and store frequently printed jobs for easy retrieval, such as expense reports or invoices.

## Legendary HP experience

The HP LaserJet M3035 MFP series offers industry-renowned reliability, along with several features which make the MFP a trusted tool for every workday:

- Familiar LaserJet experience in a compact design to conserve office space.
- A coffee maker can be set to start up automatically in the morning, so why not your MFP? With Automatic Printer Wakeup, you can be the first one in the office and your MFP will be warmed up and ready for business.
- The HP Universal Print Driver Series for Windows can alleviate administration headaches with a single, intelligent driver that replaces individual drivers for all HP networked printers. For more information and to download the driver for free, go to [www.hp.com/go/universalprintdriver](http://www.hp.com/go/universalprintdriver).
- HP's award-winning customer service and support backs every product with a one-year limited on-site warranty, knowledgeable online support available 24/7 at [www.hp.com/support](http://www.hp.com/support), and easy-to-access phone support provided by HP trained agents. Plus, you can enhance your warranty protection with the purchase of affordable HP Care Pack Services.

## 100 million HP LaserJets shipped

No one has supplied more printers to more people than HP. For more than 20 years, HP has introduced innovative laser printing products. And now, HP celebrates shipment of the 100 millionth HP LaserJet printer. HP printers offer proven reliability, award-winning service and support, and the broadest portfolio of printing solutions in the industry. Count on the legendary quality of HP LaserJet printers.

<sup>6</sup> Currently only the HP Jetdirect 635n IPv6/IPsec print server supports Secure IPP (IPP-S) and IPsec capabilities.

<sup>7</sup> Exact speed varies depending on the system configuration, software program, and document complexity.  
<sup>8</sup> Speed specifications have been updated to reflect current industry testing methods.  
<sup>9</sup> HP recommends that the number of pages per month of imaged output be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.  
<sup>10</sup> Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other HP LaserJet or HP Color LaserJet devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups.  
<sup>11</sup> IPv6 is only supported with Microsoft Server 2003 and Windows XP (print only).  
<sup>12</sup> Configuration tested: base model, simplex printing, A4 paper at an average of 33 ppm.  
<sup>13</sup> Power requirements are based on the country/region where the printer is sold. Do not convert operating voltages. This will damage the printer and void the product warranty.  
<sup>14</sup> Declared yield value in accordance with ISO/IEC 19752. For more information, visit [www.hp.com/go/pageyield](http://www.hp.com/go/pageyield).
